

MEDICAL CONDITIONS POLICY

POLICY STATEMENT

Dawat e Islami is an inclusive community that welcomes and supports students with medical conditions. Dawat e Islami provides all students with any medical condition the same opportunities as others at madrassah. We will help to ensure they can:

- be healthy
- stay safe
- enjoy and achieve
- make a positive contribution
- achieve economic wellbeing once they leave madrassah.

The madrassah makes sure all staff understand their duty of care to children and young people in the event of an emergency.

All staff feel confident in knowing what to do in an emergency.

Dawat e Islami understands that certain medical conditions are debilitating and potentially life threatening, particularly if poorly managed or misunderstood.

Dawat e Islami understands the importance of medication and care being taken as directed by healthcare professionals and parents.

All staff understand the medical conditions that affect students at Dawat e Islami. Staff receive training on the impact medical conditions can have on students.

The named member of madrassah staff responsible for this medical conditions policy and its implementation is:

Policy framework

The policy framework describes the essential criteria for how the madrassah can meet the needs of children and young people with long-term medical conditions.

1 - Dawat e Islami is an inclusive community that supports and welcomes students with medical conditions.

- Dawat e Islami is welcoming and supportive of students with medical conditions. It provides children with medical conditions with the same opportunities and access to activities (both madrassah based and out-of-

madrassah) as other students. No child will be denied admission or prevented from taking up a place in Dawat e Islami because arrangements for their medical condition have not been made.

- Dawat e Islami will listen to the views of students and parents.
- Students and parents feel confident in the care they receive from Dawat e Islami and the level of that care meets their needs.
- Staff understand the medical conditions of students at Dawat e Islami and that they may be serious, adversely affect a child's quality of life and impact on their ability to learn.
- All staff understand their duty of care to children and young people and know what to do in the event of an emergency.
- The whole madrassah and local health community understand and support the medical conditions policy.
- Dawat e Islami understands that all children with the same medical condition will not have the same needs.
- The madrassah recognises that duties in the Children and Families Act (England only), the Equality Act (England, Wales and Scotland) and the Disability Discrimination Act (Northern Ireland only) relate to children with disability or medical conditions and are anticipatory.

2 - Dawat e Islami's medical conditions policy is drawn up in consultation with a wide range of local key stakeholders within both the madrassah and health settings.

- Stakeholders should include students, parents, madrassah nurse, madrassah staff, governors, the madrassah employer, relevant local health services and relevant supporter organisations.

3 - The medical conditions policy is supported by a clear communication plan for staff, parents* and other key stakeholders to ensure its full implementation.

- Students, parents, relevant local healthcare staff, and other external stakeholders are informed of and reminded about the medical conditions policy through clear communication channels.

4 - All children with a medical condition should have an individual healthcare plan (IHP).

- An IHP details exactly what care a child needs in madrassah, when they need it and who is going to give it.
- It should also include information on the impact any health condition may have on a child's learning, behaviour or classroom performance.
- This should be drawn up with input from the child (if appropriate) their parent/carer, relevant madrassah staff and healthcare professionals, ideally a specialist if the child has one.

5 - All staff understand and are trained in what to do in an emergency for children with medical conditions at Dawat e Islami.

- All madrassah staff, including temporary or supply staff, are aware of the medical conditions at Dawat e Islami and understand their duty of care to students in an emergency.
- All staff receive training in what to do in an emergency and this is refreshed at least once a year.
- A child's IHP should, explain what help they need in an emergency. The IHP will accompany a pupil should they need to attend hospital. Parental permission will be sought and recorded in the IHP for sharing the IHP within emergency care settings.

6 - All staff understand and are trained in the madrassah's general emergency procedures.

- All staff, including temporary or supply staff, know what action to take in an emergency and receive updates at least yearly.
- If a pupil needs to attend hospital, a member of staff (preferably known to the pupil) will stay with them until a parent arrives, or accompany a child taken to hospital by ambulance. They will not take students to hospital in their own car.

7 - Dawat e Islami has clear guidance on providing care and support and administering medication at madrassah.

- Dawat e Islami understands the importance of medication being taken and care received as detailed in the pupil's IHP.
- Dawat e Islami will make sure that there are more than one members of staff who have been trained to administer the medication and meet the care needs of an individual child. This includes escort staff for home to madrassah transport if necessary. Dawat e Islami will ensure that there are sufficient

numbers of staff trained to cover any absences, staff turnover and other contingencies. Dawat e Islami's governing body has made sure that there is the appropriate level of insurance and liability cover in place.

- Dawat e Islami will not give medication (prescription or non-prescription) to a child under 16 without a parent's written consent except in exceptional circumstances, and every effort will be made to encourage the pupil to involve their parent, while respecting their confidentiality.
- When administering medication, for example pain relief, Dawat e Islami will check the maximum dosage and when the previous dose was given. Parents will be informed. Dawat e Islami will not give a pupil under 16 aspirin unless prescribed by a doctor.
- Dawat e Islami will make sure that a trained member of staff is available to accompany a pupil with a medical condition on an off-site visit, including overnight stays.
- Parents at Dawat e Islami understand that they should let the madrassah know immediately if their child's needs change.
- If a pupil misuses their medication, or anyone else's, their parent is informed as soon as possible and the madrassah's disciplinary procedures are followed.

8 - Dawat e Islami has clear guidance on the storage of medication and equipment at madrassah.

- Dawat e Islami makes sure that all staff understand what constitutes an emergency for an individual child and makes sure that emergency medication/equipment is readily available wherever the child is in the madrassah and on off-site activities, and is not locked away. Students may carry their emergency medication with them if they wish/this is appropriate.
- Students may carry their own medication/equipment, or they should know exactly where to access it.
- Students can carry controlled drugs if they are competent, otherwise Dawat e Islami will keep controlled drugs stored securely, but accessibly, with only named staff having access. Staff at Dawat e Islami can administer a controlled drug to a pupil once they have had specialist training.
- Dawat e Islami will make sure that all medication is stored safely, and that students with medical conditions know where they are at all times and have access to them immediately.

- Dawat e Islami will store medication that is in date and labelled in its original container where possible, in accordance with its instructions. The exception to this is insulin, which though must still be in date, will generally be supplied in an insulin injector pen or a pump.
- Parents are asked to collect all medications/equipment at the end of the madrassah term, and to provide new and in-date medication at the start of each term.
- Dawat e Islami disposes of needles and other sharps in line with local policies. Sharps boxes are kept securely at madrassah and will accompany a child on off-site visits. They are collected and disposed of in line with local authority procedures.

9 - Dawat e Islami has clear guidance about record keeping.

- Parents at Dawat e Islami are asked if their child has any medical conditions on the enrolment form.
- Dawat e Islami uses an IHP to record the support an individual pupil needs around their medical condition. The IHP is developed with the pupil (where appropriate), parent, madrassah staff, specialist nurse (where appropriate) and relevant healthcare services.
- Dawat e Islami has a centralised register of IHPs, and an identified member of staff has the responsibility for this register.
- IHPs are regularly reviewed, at least every year or whenever the pupil's needs change.
- The pupil (where appropriate) parents, specialist nurse (where appropriate) and relevant healthcare services hold a copy of the IHP. Other madrassah staff are made aware of and have access to the IHP for the students in their care.
- Dawat e Islami makes sure that the pupil's confidentiality is protected.
- Dawat e Islami seeks permission from parents before sharing any medical information with any other party.
- Dawat e Islami meets with the pupil (where appropriate), parent, specialist nurse (where appropriate) and relevant healthcare services prior to any overnight or extended day visit to discuss and make a plan for any extra care requirements that may be needed. This is recorded in the pupil's IHP which accompanies them on the visit.

- Dawat e Islami keeps an accurate record of all medication administered, including the dose, time, date and supervising staff.
- Dawat e Islami makes sure that all staff providing support to a pupil and other relevant teams have received suitable training and ongoing support, to make sure that they have confidence to provide the necessary support and that they fulfil the requirements set out in the pupil's IHP. This should be provided by the specialist nurse/madrassah nurse/other suitably qualified healthcare professional and/or the parent. The specialist nurse/ madrassah nurse/other suitably qualified healthcare professional will confirm their competence, and Dawat e Islami keeps an up-to-date record of all training undertaken and by whom.

10 - Dawat e Islami ensures that the whole madrassah environment is inclusive and favourable to students with medical conditions. This includes the physical environment, as well as social, sporting and educational activities.

- Dawat e Islami is committed to providing a physical environment accessible to students with medical conditions and students are consulted to ensure this accessibility. Dawat e Islami is also committed to an accessible physical environment for out-of-madrassah activities.
- Dawat e Islami makes sure the needs of students with medical conditions are adequately considered to ensure their involvement in structured and unstructured activities, extended madrassah activities and residential visits.
- All staff are aware of the potential social problems that students with medical conditions may experience and use this knowledge, alongside the madrassah's bullying policy, to help prevent and deal with any problems. They use opportunities such as PSHE and science lessons to raise awareness of medical conditions to help promote a positive environment.
- Dawat e Islami understands the importance of all students taking part in physical activity and that all relevant staff make appropriate adjustments to physical activity sessions to make sure they are accessible to all students. This includes out-of-madrassah clubs and team sports. •
- Dawat e Islami understands that all relevant staff are aware that students should not be forced to take part in activities if they are unwell. They should also be aware of students who have been advised to avoid/take special precautions during activity, and the potential triggers for a pupil's medical condition when exercising and how to minimise these. •

- Dawat e Islami makes sure that students have the appropriate medication/equipment/food with them during physical activity.
- Dawat e Islami makes sure that students with medical conditions can participate fully in all aspects of the curriculum and enjoy the same opportunities at madrassah as any other child, and that appropriate adjustments and extra support are provided.
- All madrassah staff understand that frequent absences, or symptoms, such as limited concentration and frequent tiredness, may be due to a pupil's medical condition. Dawat e Islami will not penalise students for their attendance if their absences relate to their medical condition.
- Dawat e Islami will refer students with medical conditions who are finding it difficult to keep up educationally to the SENCO/ ALNCO/Special Educational Needs Advisor who will liaise with the pupil (where appropriate), parent and the pupil's healthcare professional.
- Students at Dawat e Islami learn what to do in an emergency.
- Dawat e Islami makes sure that a risk assessment is carried out before any out-of-madrassah visit, including work experience and educational placements. The needs of students with medical conditions are considered during this process and plans are put in place for any additional medication, equipment or support that may be required.

11 - Dawat e Islami is aware of the common triggers that can make common medical conditions worse or can bring on an emergency. The madrassah is actively working towards reducing or eliminating these health and safety risks and has a written schedule of reducing specific triggers to support this.

- Dawat e Islami is committed to identifying and reducing triggers both at madrassah and on out-of-madrassah visits.
- Madrassah staff have been given training and written information on medical conditions which includes avoiding/reducing exposure to common triggers. It has a list of the triggers for students with medical conditions at Dawat e Islami, has a trigger reduction schedule and is actively working towards reducing/ eliminating these health and safety risks.
- The IHP details an individual pupil's triggers and details how to make sure the pupil remains safe throughout the whole madrassah day and on out-of-madrassah activities. Risk assessments are carried out on all out-of-

madrassah activities, taking into account the needs of students with medical needs.

- Dawat e Islami reviews all medical emergencies and incidents to see how they could have been avoided, and changes madrassah policy according to these reviews.

12 - Where a child is returning to madrassah following a period of hospital education or alternative provision (including home tuition), Dawat e Islami will work with the local authority and education provider to ensure that the child receives the support they need to reintegrate effectively.

- Dawat e Islami works in partnership with all relevant parties including the pupil (where appropriate), parent, madrassah's governing body, all madrassah staff, catering staff, employers and healthcare professionals to ensure that the policy is planned, implemented and maintained successfully

13 - Each member of the madrassah and health community knows their roles and responsibilities in maintaining and implementing an effective medical conditions policy.

- Dawat e Islami works in partnership with all relevant parties including the pupil (where appropriate), parent, madrassah's governing body, all madrassah staff, catering staff, employers and healthcare professionals to ensure that the policy is planned, implemented and maintained successfully.
- Dawat e Islami is committed to keeping in touch with a child when they are unable to attend madrassah because of their condition.

14 - The medical conditions policy is regularly reviewed, evaluated and updated. Updates are produced every year.

- In evaluating the policy, Dawat e Islami seeks feedback from key stakeholders including students, parents, madrassah healthcare professionals, specialist nurses and other relevant healthcare professionals, madrassah staff, local emergency care services, governors and the madrassah employer. The views of students with medical conditions are central to the evaluation process.
